

Background:

The quarterly Grants and Projects Report is enclosed for review by Committee members. TCDD staff may also provide updates to the Committee of notable achievement or items of concern. Items included in this report are:

- Projected Available Funds – This chart represents funds available for additional projects by fiscal year for federal fiscal years 2008 through 2014. These totals reflect final expenditures of projects funded with FY 2008 funds, expenditures or funds awarded with FY 2009 funds, and funds awarded or anticipated awards with FY 2010 – 2014 funds, including estimated amounts for projects approved by the Council but not yet initiated. The remaining balances shown therefore reflect funds available for projects in addition to those projects currently approved by the Council. **Please note:** Funds are shown for each year alone; future year amounts do **not** include amounts available in prior years.
- Federal Areas of Emphases – The federal DD Act allows Councils to initiate activities in any of nine “areas of emphasis”. Definitions from the DD Act are provided as background information for the Project Development Committee.
- Projections Graph and Key – This chart and graph reflects grant funds awarded and/or planned for the five year period of fiscal years 2008 through 2012 by area of emphasis in the current TCDD State Plan. These items were requested by the Committee to assist understanding of funding for planning purposes.
- Bilingual activities of TCDD Projects Chart, Graphs and Key – The information provided in these charts reflects the various formats that TCDD funded projects use in their respective activities. The graphs reflect estimated funding per area and statewide of all of the TCDD funded projects.

Important Terms:

Cumulative: Including amounts from previous years.

Bilingual: In two languages, usually English and Spanish.

Project Development Committee

Agenda Item 6.

Expected Action:

No action anticipated; information item only.

2008	2009	2010	2011	2012	2013	2014
\$0	\$0	\$23,792	\$1,472,712	\$1,734,930	\$2,556,130	\$2,714,130

NOTES:

- 1) Federal law (DD Act) allows Councils 2 years to fully obligate funds. 2009 Balance was fully obligated by the end of Sept. 2010.
- 2) Funds awarded or anticipated to be awarded for authorized projects are included in Grants and Project Expenses.
- 3) Remaining balance of funds is available for award in subsequent year.

Federal Areas of Emphasis

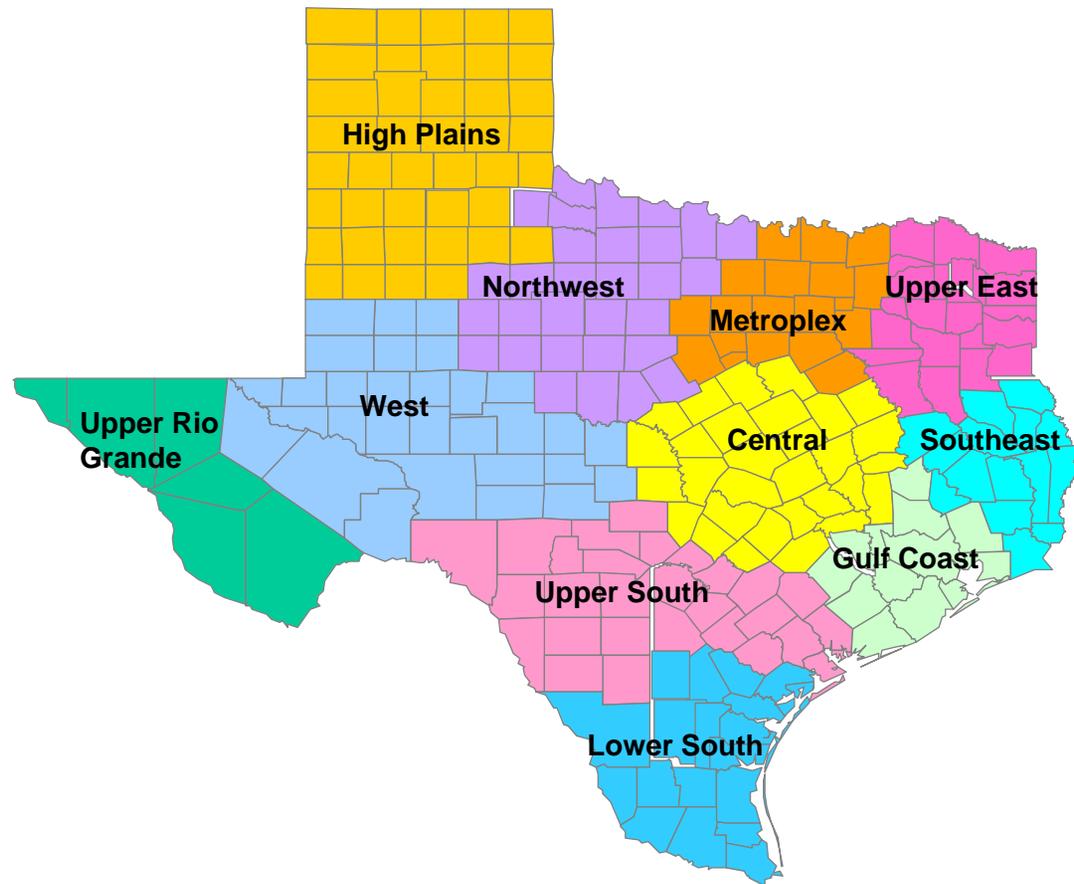

The Developmental Disabilities Assistance and Bill of Rights Act of 2000 (DD Act) provides funds for state councils on developmental disabilities to initiate advocacy, capacity building, and systemic change activities. Each council is responsible to develop a state plan that specifies goals, objectives and planned activities within the “areas of emphasis” specified in the DD Act. The DD Act defines those areas as:

1. **Quality Assurance Activities** means advocacy, capacity building, and systemic change activities that result in improved customer- and family-centered quality assurance and that result in systems of quality assurance and consumer protection. These include: monitoring of services, supports, and assistance; training in leadership, self-advocacy, and self-determination; and activities related to interagency coordination and systems integration.
2. **Education Activities and Early Intervention Activities** means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities and, when appropriate, their families being able to access appropriate supports and modifications that will allow individuals to maximize their potential, to benefit from lifelong educational activities, to be integrated and included in all facets of student life, and to ensure that sufficient capacity exists within the family to meet the needs of their child with a disability.
3. **Child Care-Related Activities** means advocacy, capacity building, and systemic change activities that result in families of children with developmental disabilities having access to and use of child care services, including before-school, after-school, and out-of-school services, in their communities.
4. **Health-Related Activities** means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of coordinated health, dental, mental health, and other human and social services, including prevention activities, in their communities.
5. **Employment-Related Activities** means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities acquiring, retaining, or advancing in paid employment, including supported employment or self-employment, in integrated settings in a community.
6. **Housing-Related Activities** means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of housing and housing supports and services in their communities, including assistance related to renting, owning, or modifying an apartment or home.
7. **Transportation-Related Activities** means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of transportation.
8. **Recreation-Related Activities** means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of recreational, leisure, and social activities, in their communities.
9. **Other services** available or offered to individuals in a community, including formal and informal community supports that affect their quality of life.
10. **Cross-Cutting Measures** that represent council activities that impact all areas of emphasis.
